[Smart Sympodium Id350 Software 39](#)

Multuser support

Two users can each pick up pens and draw on the screen at the same time, enabling greater collaboration.

Audio

Your interactive flat panel includes two 10 W integrated side-firing speakers for presenting audio from connected input sources.

SMART software

You can install the following SMART software on the computers connected to your interactive flat panel to take full advantage of the interactive flat panel's features:

Software	Description
SMART Product Drivers	SMART Product Drivers enables connected computers to detect input from your interactive flat panel.
SMART Ink®	SMART Ink enables you to write and draw in digital ink over open applications, files, folders, websites and any other open window on your computer. When you write outside the open windows on your computer, a SMART Ink Note appears and you can write inside the note. When you open an application that has its own ink tools, you can turn off SMART Ink, and then use the application's ink tools to write in the content.
SMART Notebook® collaborative learning software	SMART Notebook software enables you to use your interactive flat panel in a classroom.
